

Photos: *top left* – planting sedges at lawn edge.
Top right - The right tool for the job!
Bottom right - sowing *Dactyloctenium* seed in a plot (more of this to be done next year, watch this space).

Working Bee begins at 9am

BBQ lunch at 12.30pm

- **Sunday 28th June**
Volunteer Training day: Entry gate and surveillance battery trouble shooting; how-to instruction on traps and tunnels, bird monitoring, mealworms and more!
- **Sunday 5th July**
Barrier Free maintenance – fix up subsiding edges along the track
- **Sunday 12th July**
Vegetation tidy-up: Cut back encroaching shrubs on the Ridge walk.

Sunday 19th July

- **Vegetation tidy-up: Continuing with cutting back along the Ridge Walk.**

Sunday 26th July

- **Field trip away – no working bee!**

MIDWEEK:

Fence checks and trap checks are ongoing during the week, just get in touch if you want to help.

Vegetation Plot monitoring continues in July

Also **Robin monitoring** and feeding with mealworms – we can tell you where to look!

Important note: Please bring water bottle & snacks, sensible clothing, sturdy footwear & daypack. Wet weather work options are available as required and plans may change at short notice to match operational priorities.
